REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Applicant argues "Reinman, Giacalone, and Tran failed to teach bypassing a branch prediction to an instruction fetch unit by the end of a clock cycle in which said branch prediction is stored in said queue" for claims 1, 12, and 20.

This argument is found to be persuasive for the following reason. The examiner agrees that Reinman failed to teach this limitation. Reinman disclosed in figure 5 a queue that stores branch predictions, but failed to teach storing a branch prediction and bypassing the branch prediction to the instruction fetch unit in the same cycle.

The next closest prior art found by the examiner uses bypassing in two different fashions.

The first prior art found is Kadambi et al. (6,976,125), which disclosed storing a cache line into the data cache and bypassing data to the register file (Figure 3 element 310). However, there is no motivation to use Kadambi to modify Reinman to such a degree that a branch prediction is bypassed to the instruction fetch unit by the end of a clock cycle in which the branch prediction is stored in the FTQ of figure 5. Thus, the claims 1, 12, and 20 are allowable over a combination of Reinman and Kadambi.

The second prior art found is Asaad et al. (7,051,186), which disclosed register bypassing and storing an instruction result in a register during the same cycle. However, there is no motivation to use Asaad to modify Reinman to such a degree that a branch prediction is bypassed to the instruction fetch unit by the end of a clock cycle

in which the branch prediction is stored in the FTQ of figure 5. Thus, the claims 1, 12, and 20 are allowable over a combination of Reinman and Asaad.

No other prior art has been found by the examiner and the claims are now allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JACOB PETRANEK whose telephone number is (571)272-5988. The examiner can normally be reached on M-F 8:00-4:30.
